

SUN LIFE TERM INSURANCE FOR DIABETES

Coverage made for you

Living with diabetes can come with various challenges, including getting life insurance with affordable premiums. You deserve the peace of mind that comes with protecting your loved ones. We can help you find a solution so you can focus on your health and living life to the fullest.

Sun Life offers a first-of-its-kind comprehensive life insurance solution for Canadians living with diabetes. You can get professional support and lifestyle tips to manage your condition, and tailor-made term insurance – all in one place.

With Term Insurance for Diabetes, you get:

- · A higher chance of approval
- More affordable premiums as low as \$3/day*
- · Access to diabetes management resources

This could be the right choice if you're:

- seeking a comprehensive life insurance solution that provides diabetes support
- · diagnosed with type 1, 2, gestational or pre-diabetes
- between the ages of 18 to 65
- looking to financially protect your loved ones in case of early death

*For a 45-year-old male non-smoker with a 150% rating due to diabetes, a 10-year term policy with \$500,000 coverage would cost \$71.78/month. The pricing is as of May 2024 and subject to change.

What are the benefits of term life insurance?

It gives you and your family affordable insurance for a set period of time – known as the term – before expiring.

It's a great fit for anyone who wants:

- A tax-free lump sum: If the unthinkable happens and you pass away, this
 money will go to your named beneficiaries often a spouse, your children
 and/or loved ones. They can use it any way they wish. It could help them cover
 your final expenses like debts, medical bills and funeral costs. It could even
 help them meet their own financial goals of paying off their mortgage,
 retiring with ease or going to university.
- Affordable protection: Insurance coverage options at a lower cost.
