## When does the Achievers Term coverage begin?

Your coverage will be effective when:

- we deliver your policy
- you make your first payment
- you've provided evidence that your insurability hasn't changed since you applied for insurance (when required)\*

## When does the Achievers Term coverage end?

As long as you pay your premiums, coverage will end at the end of the insurance term. For example, if you purchase a Term 20 Achievers Term policy, your coverage will end after 20 years.

## Is there a difference if you pay premiums monthly or annually?

You can choose to pay premiums annually or by monthly pre-authorized chequing. If you pay monthly, premiums are slightly higher. To calculate the monthly premium, multiply the total annual premium by 0.09.

### For example:

If the annual premium is \$400, the monthly premium is  $\$400 \times 0.09$ . This equals \$36 per month or \$432 per year.

\*We may ask you to provide evidence of any change in your health or insurability that happens between the time you apply for insurance and the time we deliver your policy.

## Living benefit program

This can help when the insured person has a terminal illness and isn't expected to live more than 24 months. It can provide a lump-sum payment equal to 50% of the policy basic insurance amount, up to a maximum of \$100,000. It's yours to use as needed, providing even more security. Sun Life offers the Living benefit on a compassionate basis. It's subject to the rules of the Living benefit program in effect at the time of your request.

We offer this benefit on all Sun Life Assurance Company of Canada life insurance products. It's not part of your policy. We may approve it, at our discretion on a case-by-case basis.
